*Proceedings of the Chief Commissioner of Mysore in the General Department,
(Judicial),—dated 24th September 1880.*

READ— Chief Commissioner's Proceedings No. 3589—71, dated 25th July 1879.

READ also— The several Deputy Commissioners' reports.

No. 489—POLICE 15, DATED BANGALORE, 24TH SEPTEMBER 1880.

ORDER.—In the above read Proceedings of the Chief Commissioner Mr. Gordon made known his intention of re-organizing the Rural Police of Mysore, and the reports received from the different Deputy Commissioners contain their several proposals on the establishment to be maintained in each District, and the manner to be observed in carrying on the work. These reports have received the most careful consideration. Naturally there are diversities of opinion, and it must be expected, therefore, that, in order to secure uniformity of principle, tempered, as it must be, by variations in detail, demanded by local circumstances, opinions and recommendations carefully made and entitled to weight, are in some cases overridden and rejected. In the main however the Chief Commissioner is able to adopt the opinions of the majority of Deputy Commissioners.

2. With the re-organization of the Commission and introduction of a new graded service on the 31st December last, the Police Assistant Commissioners were abolished and henceforth though the Deputy Commissioner can employ a General Assistant Commissioner on any particular work he may desire to depute to him, the general management of the Police duties of the District and the Police branch of the District Office rests with the Deputy Commissioner himself and must be done by him personally.

3. To aid him in this the Deputy Commissioner will have the services of a 1st Class Inspector of Police on pay of Rs. 100 a month and Rs. 15 horse allowance. The Head-quarter Inspector will be the Deputy Commissioner's Sheristadar in the Police Department; and he will be something more, for he will always be available to conduct any prosecution of a case brought before any Magistrate's Court by the Police, and he will be always ready to be deputed to investigate any particular case or class of cases; and he will be at hand to be sent to inspect and report upon any Police station in the District.

4. In the Taluks the Police will be under the Amildar.

5. The transfer of the charge of the Taluk Police from the Inspector to the Amildar is a measure necessary not only because it is desirable to utilize the Amildar's local knowledge and influence for the detection and prevention of the grave kinds of crime, but also because it must tend to the rapid resuscitation of the Village Police, which in most parts of the Province has not yet received the attention it so imperatively demands. Another most important consideration which calls for the change of system is the present condition of the finances of the Province. The Force according to the present scale costs per annum as follows in salaries and horse allowances:—

				Rs.
Officers	..	..	..	1,51,728
Men	..	..	..	3,23,880
Total				4,75,608

Even under the present system the cost of officers is disproportionately large, and it must be capable of very considerable reduction when the responsible taluk charge rests in the Amildar. By abolishing all head stations except at Taluk Head-quarters, and by restricting the number of Inspectors and Jamadars to the number of Taluks, providing however one extra Jamadar for each District Reserve, a large reduction is readily feasible.

*Proceedings of the Chief Commissioner of Mysore in the General Department,
(Judicial),—dated 24th September 1880.*

6. The present number in each grade has been fixed rather arbitrarily, and there is therefore a block to promotion and there is wanting that inducement to good service which the prospect of promotion is expected to inspire, *e. g.* though there are so many as 80 first class Jamadars getting 26 Rs. a month, yet there are only 87 2nd class Jamadars on 22 Rs. Again, when there are only 134 Daffedars in each of the 1st and 3rd classes, there are as many as 265 in the intermediate class. The number of 1st class peons (1138) bears no proportion whatever to the 134 in the Lance Daffedari which is the next higher grade for promotion to which a 1st class constable naturally looks forward. By removing these inconveniences and by properly regulating the number in each grade, some further reduction will result.

7. The position of the Head-quarter Inspector under the scheme now to be introduced will be equivalent to that of the Amildar of the lowest grade. The Taluk Inspectors will be regarded as the Amildars' Assistants in the Police Department, as the Taluk Sheristadars are that Officer's Assistants in the Revenue Department. The Inspectors will be eligible like the Taluk Sheristadars for promotion to the post of Amildars, when by character and qualifications they are found deserving. Under such circumstances Mr. Gordon trusts that future new appointments will be made with scrupulous care, and that the opportunity now afforded by the reduction of their present number may be so used as to eliminate from the Force those who may not be qualified in every way.

8. The revision and reduction of the Force being thus advantageous in every way, Mr. Gordon prescribes the following revised scale for adoption from 1st December 1880:—

Grades.	Number in each Grade.	Monthly Pay and Horse Allowance of each Grade.	Total Monthly Pay and Allowances.	Remarks.
Head-Quarter Inspector ...	8	Rs. 100 + 15	920	One for each District.
District Head Munshi ...	8	40	320	4 Munshis for each District. The 2nd and 3rd Munshis must be got by transfer of the District Judicial Deputy Munshi and one of the Munshis of the General Assistant's Office. The Judicial work of the Deputy Commissioner's and the work in the General Assistant's Office being inconsiderable.

*Proceedings of the Chief Commissioner of Mysore in the General Department,
(Judicial),—dated 24th September 1880.*

A statement shewing the distribution of this Force by Districts is appended.

9. The financial result of the foregoing scheme is a saving of Rs. 85,608 in salaries and horse allowances. By economical management of the miscellaneous charges which now amount to Rs. 44,400 per annum as per the budget, the cost of the Rural Police may be brought down well within Rs. 4,00,000 from the present figure of Rs. 5,20,000.

10. It must however be noted that the reduction of the Judicial Deputy Munshi of the District Office and one of the Munshis of the General Assistant's Office bring no actual saving, as these officials are merely transferred to be borne on the District Police Office. It must also be remembered that the foregoing scale does not include the Police required for municipal towns where the cost of the Police is defrayed exclusively by the Municipalities. At each District Head-quarter Municipality there may be retained a head station if one already exists paid for by the Municipality.

11. The Deputy Commissioners are requested to take immediate steps to carry out the revision and reduction above ordered. In the case of the officers and men appointed or promoted after issue of the Chief Commissioner's Proceedings No. 3589—71, dated 25th July 1879, announcing the intended re-organization, their appointments and promotions must be regarded as temporary and liable now to cancellation if required for the purpose of the reduction now finally sanctioned.

The Chief Commissioner trusts however that by thoughtful and considerate action, the Deputy Commissioners will be able to carry out the reductions without needless hardship to individuals—

1st. By discharging on pension or gratuity the really incompetent.

2ndly. By transferring some of the superfluous Inspectors and Jamadars to other departments of the public service (for which they may be specially qualified) in the room of the officials in such departments who may retire or are eligible for pension, and—

3rdly. By applying to all retirements made for the purpose of this reduction the special pension rules sanctioned for the recent general retrenchment scheme.

12. In dealing with Inspectors and Jamadars, the Deputy Commissioners must steadily bear in mind that, when a few years ago, the present scale was introduced, a large number of highly paid posts (of Inspectors, Sub-Inspectors and Jamadars) were created and these were then filled up often by persons who drew comparatively very small pay in other departments, and in some cases by persons who were wholly new to the service. They were thus suddenly appointed to posts to which they could not have hoped to attain in the ordinary course of official promotion, and in many cases their appointments were made apparently for no better reason than that the highly-paid police offices had come into existence and had some how to be filled up. The length of the Police service of persons thus appointed is therefore an important consideration (other things being equal) in deciding who should remain in the Force, who should be removed from it or discharged on gratuity.

13. The Deputy Commissioners are requested to submit the following statements before the 15th November next—

1st. A statement shewing the name, age, length of Police service, length of other service and qualifications of every Inspector, Sub-Inspector and Jamadar and shewing how each is proposed to be dealt with.

2nd. A list of all persons in the Police and other departments who should be retired for the purpose of this reduction shewing their name, age, qualifications and grounds for retirement.

3rd. An abstract statement shewing the actual allocation of the present Force and the proposed allocation of the reduced Force.

*Proceedings of the Chief Commissioner of Mysore in the General Department,
(Judicial),—dated 24th September 1880.*

4th. A Statement of the Police at District Head-quarters maintained by Municipalities. Bangalore and Mysore are excepted.

14. Upon the receipt of these statements final orders will be passed and the re-organization must come into effect from 1st December 1880.

To each Taluk will be attached an Inspector to work under the orders of the Amildar. Inspectors will be of 2 classes paid at Rs. 50 and 35 respectively and they will draw in addition Rs. 10 per month horse allowance. There will then be only one head station in each Taluk, the Taluk Head-quarter Station, and it will be the Amildar's duty to keep the several registers and send in the various returns required of head station. It will be the duty of the Amildar to investigate personally all cases of any importance which are reported in the Taluk, and Amildars are distinctly to understand that it is far from sufficient for them to depute the Inspector to investigate such cases even though they should check his action upon receipt of diaries. Their own personal action, not their good advice, is required.

15. It is also necessary to issue the following instructions with regard to Registers and Forms under the several sections of the Criminal Procedure Code noted opposite each. The following Registers and Reports are prescribed by law and must be kept in, or sent from the Head-quarter stations :—

1. Diary Register of complaints,	Sections	112, 113, and 126.
2. First Intimation Report	"	114.
3. Arrest Report	"	92, 93, 97 and 132.
4. Special Order of detention	"	124.
5. Charge Sheet A	"	127.
6. Referred Charge Sheet B	"	116, 117, 125.
7. Register of sudden and unnatural deaths	"	133.
8. Bail Bond	"	128.
9. Recognizance Bond	"	130.
10. Register of Property	"	415.
11. Special Diary Book	"	120.

16. In addition there are eight registers prescribed by the Police Rules and kept in each head station. First comes the General Register of crime. For the due preparation of the crime return which must be sent in from each taluk in order that the statistics of the year may be compiled, it is essential that in each Amildar's Office the General Register of crime should be kept. Each subordinate station in the taluk will furnish the Amildar with the information necessary for the compilation of this register.

17. The next the Register of Duty performed must be kept in every station. It is very easily written, and it is very useful in checking the distribution of work by the officer in charge of a station. Moreover that which is a check on dishonest or careless officers acts too as a safeguard to those who punctually and honestly discharge their duty.

Thirdly. The Register of Processes (summonses and warrants) is plainly indispensable: this register will be kept in the Taluk head station, the information in respect of processes executed by sub-stations being at once furnished by the officer in charge for incorporation in the register. The Register of fine warrants will be kept in the same way.

Fifthly. The Register of previous convictions must be kept by the Police in the Taluk Head-quarter Station, for though this register is kept also in the Magistrate's Court, it is necessary that the Police should be in a position to lay all procurable information before the Magistrate when sending up a case.

Sixthly. The Register of villages and hamlets once prepared costs no further trouble and affords much useful information. It will be kept at each station and similarly the inspection book will be retained there.

Lastly. There is the Register of suspicious characters which is required in all stations and is especially useful when the officer in charge of the station is changed.

*Proceedings of the Chief Commissioner of Mysore in the General Department,
(Judicial),—dated 24th September 1880.*

18. To recapitulate, at sub-stations the following registers only need be kept :—

- | | |
|---|--|
| <ol style="list-style-type: none"> 1. Diary Register of complaints. 2. Detail of duty performed. 3. Register of 1st Intelligence Reports. 4. Do of village hamlets. | <ol style="list-style-type: none"> 5. Register of suspicious characters. 6. Do of previous convictions. 7. Inspection Book. |
|---|--|

and at taluk kasba stations the following :—

- | | |
|---|--|
| <ol style="list-style-type: none"> 1. Diary Register of complaints. 2. First Information Report Book. 3. Arrest Report Book. 4. Register of special order of detention. 5. Charge Sheet, A Form. 6. Referred Charge Sheet, B Form. 7. Register of sudden and unnatural deaths. 8. Bail Bonds. 9. Register of Property. 10. Recognizance Bond. | <ol style="list-style-type: none"> 11. Special Diary Book. 12. Register of re-convicted prisoners. 13. Detail of duty performed. 14. Register of villages and hamlets. 15. Register of suspicious characters. 16. Inspection Book. 17. General Register of Crime. 18. Register of Processes. 19. Do of Fine Warrants. |
|---|--|

It is necessary next to lay down what Registers must be kept at District Police Office; at present there are 14 as follows :—

- | | |
|---|--|
| <ol style="list-style-type: none"> 1. General Register of Crime. 2. Ledger. 3. First Intelligence Report Book. 4. Check Register of Station Diaries. 5. Do do of Inspectors' Diaries. 6. Register of the Force. 7. Service Register. | <ol style="list-style-type: none"> 8. Contingent Register. 9. General Register of previous convictions. 10. Register of School Attendance. 11. Do of Progress. 12. "From" Register of Letters. 13. "To" do do 14. Order Book. |
|---|--|

19. The General Register of Crime and the Crime Ledger cannot be dispensed with. In the former all statistics of crime are entered for each case investigated first from the station house diaries, and afterwards from the special diaries of detection. The information thus obtained is posted into the Ledger which is essential to enable the head office to render statistical information with promptness. Without the General Register the Deputy Commissioner can neither give information of the state of crime in his District, nor exercise any proper control upon the returns made by his Amildars.

20. The Register of First Information Reports must be kept for all the heinous offences which have to be reported by the District Office to the Chief Commissioner's Office.

21. The retention of Check Registers of station diaries and Inspectors' diaries is essential to ensure the correct receipt of the diaries referred to the District Office.

22. Next, the Register of the Force is exceedingly useful in preparing the Force Return which is sent in to the Chief Commissioner's Office once a month, and it saves much time and trouble and secures an accuracy of return which could not be attained by making out the Force Return from the Order Book.

23. A separate Contingent Register and Contingent Bills for the Police Department are not necessary; the Police contingencies can be accounted for in the same register as the other office contingencies expended by a Deputy Commissioner, and if the Deputy Commissioner as Magistrate of the District keeps up a Register of previous convictions, no separate Register need be kept by the Police Branch of his Office.

24. While there is a Police School at Head-quarters the School Instructor must keep up the Register of school attendance and the Register of school progress.

25. Correspondence will be conducted by the English Department of the Deputy Commissioner's Office and separate outward and inward Registers for Police correspondence are not required.

26. The necessity for retaining the Order Book is obvious. In future therefore

the number of Registers to be kept in the District Police Office will be ten and they are as follows:—

- | | |
|-------------------------------------|-----------------------------------|
| 1. General Register of Crime. | 6. Register of the Force. |
| 2. Crime Ledger. | 7. Service Register. |
| 3. First Intelligence Report Book. | 8. Register of School Attendance. |
| 4. Check Register of Station Diary. | 9. Do do Progress. |
| 5. Do do of Inspectors' Diary. | 10. Order Book. |

27. In addition to keeping Registers which are prescribed above in the several stations and offices it is necessary to lay down the Returns and Reports which must be sent in at stated times either for compilation of necessary statistical statements or to afford facilities for current check and control of the work of subordinates by higher authority.

28. In some cases it is sufficient to record facts in registers which remain in the station and afford means of check to the inspecting officer; in others it is necessary that the facts recorded be brought at once to the attention of the superior officer to enable him to guide the action of his subordinates.

29. The Amildar's Crime Return is to be sent in to Head-quarters once in a month to enable the Deputy Commissioner to check the statistics of crime which he has compiled from station house and special diaries.

30. The Inspector's Itinerary Return must be sent in also once a month. This return enables the Deputy Commissioner to see that the Inspectors are moving about their taluks, supervising in an efficient manner the work of their subordinates, and it is wanted to prepare the return for the whole of the District which is required for submission to Head-quarters.

31. The following Returns being required for the preparation of the Annual Report need only be sent in after the close of the year, viz:—

- | | |
|-----------------------------|--------------------------------------|
| 1. Process Return. | 3. Return of Accidental Deaths, &c., |
| 2. Return of Fine Warrants. | 4. Do of Arms, Ammunition, &c., |

32. The Register of detail of duty performed should be sent only when called for; as a rule it will be sufficient to keep this Register filed in the station and open to inspection when the Deputy or Assistant Commissioner visits the taluk.

33. As mentioned above, a police officer when investigating a case is required by law to keep a Special Diary, and at each Head-quarter Police Station there must be kept a Diary Register of complaints. A copy of the former and an extract of the latter termed the Station-house Diary are required daily for the information of the Deputy Commissioner, the former to enable him to watch the proceedings of his subordinates and to correct shortcomings and afford advice in the detection of crime; the latter to give him the requisite information for writing up his General Register of Crime. The Station-house Diary will be sent up by the Amildar and so, will the Special Diary, when the Amildar is the investigating officer; when the investigating officer is below the rank of Amildar his Special Diary will go through that officer to the Deputy Commissioner.

34. Besides these diaries an Inspector is required to keep a General Diary. These diaries will be sent in to the Amildar by Inspectors and once a week, the Amildar will submit to the Deputy Commissioner a concise resume of the week's work, giving extracts from these Inspectors' General Diaries or enclosing the diaries themselves when necessary; in this weekly report the Amildar will recount the Police work of himself and his Inspector.

35. The above rules provide for all the returns and periodical reports which a District Police Office receives from the taluks; there is nothing in them to preclude special reports or confidential communications whenever such are called for, and it is only by all grades of police working in perfect harmony, that efficiency can be secured. The District Office then has to submit to the Head Office certain returns and reports which are in like manner required either to afford opportunity of control or to furnish statis-

(Judicial),—dated 24th September 1880.*

tical information, and in the preparation of such returns District Officers are to make use of the information which, in the manner herein laid down, is placed at their disposal. Additional clerical labor is not to be thrown on the Taluk Office by requiring the preparation there of statements or reports which are due from the Districts, but if it is found by experience that the orders hereby given do not provide for the District Officer being duly or sufficiently kept acquainted with what he requires to know and with what is required of him, the deficiency must be brought to notice in order that the system may be amended.

36. Deputy Commissioners will be required as heretofore to submit the monthly Return of Crime, Return of Force and the Itinerary Report of Inspectors; but as Inspectors are no longer in the same position of trust and importance that they have occupied, and for Amildars a prescribed annual confidential report exists, the annual report on Inspectors may be discontinued. The Head-quarter Inspector on Rs. 100 per mensem will be included in the confidential report on ministerial officers drawing Rs. 100 and over. The annual return of arms, ammunition, &c., will be retained.

37. In respect of heinous offences the definition of which will remain unchanged, the First Intelligence Report is required as soon as information is received and Progress Reports may be sent fortnightly instead of weekly, one for the 1st 15 days of a calendar month and one for the other half of the month.

38. The Statement of undetected cognizable cases submitted half yearly contains heinous as well as other cases and as it will be retained, the quarterly return of undetected heinous offences may be discontinued.

39. The Dacoity Statements I and II and Statement of Thuggee (both half yearly) are no longer required for the General Superintendent of operations for the suppression of thuggee and dacoity and may therefore be discontinued.

40. The Half yearly Statement A and C of cognizable and non-cognizable offences and of professional crime are dispensed with, but the classified statements of dacoities and robberies contain information which is often wanted and not otherwise afforded; they must therefore be continued, but may be submitted annually instead of half yearly as now.

41. The Annual Statements A to G and the group statement and statement of bad characters are required for the Police Administration Report and are therefore retained.

42. This completes the statements and returns which are required of a District Officer for purpose of check or statistics. Occasionally when criticism is made on a charge sheet by a Magistrate reflecting on the conduct of the Police, the sheet whether in A or B Form is sent to the Head Office but this entails no preparation of either form or report.

43. In the Account Department the change of system simplifies details. There will be no longer occasion to send in Batta Bills of Police Assistant Commissioners. There remains the Contingent Bill and Office Establishment Batta Bill which must be sent as hitherto, the Disbursement Statement, Schedule of Establishment and the Municipal Budget.

44. The Disbursement Statement is required monthly, and for the purpose of checking this statement a true copy of the Taluk Barawards (Talukwar) will be submitted by 15th of the month following that for which the pay is drawn. The Schedule of Establishment which must be sent in for the 1st April of each year need not be separately given for the Police, but will form part of the General Return made by a Deputy Commissioner and the Municipal Budget is no longer wanted at the Head Police Office.

45. Estimates, Notifications of sanction, Completion Bills, and Progress Reports of Tawnahs in respect of buildings undertaken in the Police Department cease to be required; for, all works are now done in the Public Works Department.

Letter No. 547—53, dated 18th November 1879, from the Anche Bakshi, requesting sanction to the opening of Anche lines from Chikmagalur to Koppa *via* Balehonnur and Sulebail, from Chikmagalur to Tavikere *via* Santaveri, and from Goribidnur to Koratagere.

Chief Commissioner's Proceedings No. 6260—G. 1264, dated 29th November 1879, calling for a statement shewing the establishments employed on all the existing lines of postal communications and inquiring what addition or re-distribution may be made so that greater efficiency may be obtained without increase of cost.

READ—

Letter No. 932—97, dated 12th March 1880, from the Anche Bakshi, submitting the report called for in the above, and recommending the opening of thirty more Anche lines, and suggesting certain reforms in the Department.

No. 4417-28—GENL. 1116, DATED BANGALORE, 14TH SEPTEMBER 1880.

ORDER.—The expense entailed by the institution of the lines now proposed cannot, it is observed, be met by reduction in existing lines or establishments unless a curtailment of establishments can be effected by the introduction of the system of payment in postage labels. The cost of adopting all the suggested Anche lines would be so great and the chances of their paying so remote, that the Chief Commissioner is constrained to dismiss from consideration the scheme of additions as a whole. The same has to be said of the institution of rural messengers and the other reforms proposed by the Anche Bakshi. The question of the increase to the pay of certain Anche Mutsaddis in the Malnad has been disposed of in this Office Proceedings No. 2822—F. 390, dated 20th July 1880. The desirability of all the reforms suggested is admitted, but the present is not, in the Chief Commissioner's opinion, a fitting time for adopting them.

2. One proposed Anche line, however, stands on a different footing from all the rest, namely, the line along the new road from Chikmagalur to Koppa by Balehonnur and Sulebail. This line is not merely desired in order to quicken communication with Koppa, but its establishment commends itself on other and much stronger grounds. A large tract of country has recently been opened out by the construction of a first class road, and in the place of being an unknown jungle, it is rapidly attracting European settlers who are laying out a very considerable amount of capital on its improvement. Those who live between Koppa and Vastara are absolutely unprovided with postal communication, and Mr. Gordon thinks it is the duty of the State to keep pace in this respect with advances made in opening out and populating the country.

3. The requirements of the proposed line are (1) the movement of the Mutsaddi at Vastara to Aldur and the appointment in his stead at Vastara of the Hobli Schoolmaster as Mutsaddi on Rs. 3 per mensem; (2) the establishment of Mutsaddis at Balehonnur and Sulebail; and (3) the entertainment of 23 Anche runners between Vastara and Koppa.

4. The first proposition involves a cost of Rs. 3 a month. To provide for the second it is proposed to appoint the Sayer Karkun at Balehonnur as Mutsaddi at that

*Proceedings of the Chief Commissioner of Mysore in the General Department,
(General),—dated 14th September 1880.*

place in addition to his other duties with an allowance of Rupees 3 per mensem, and to appoint a Mutsaddi at Sulebail on Rs. 15. For the third, an expenditure of Rs. 138 is proposed being pay at 6 Rs. per mensem for each Anche runner.

5. In beginning an experimental line such as the one under notice, it is essential to observe the strictest economy, for on the line proving remunerative depends its continuance. It is therefore inexpedient, Mr. Gordon thinks, to pay the Aldur and Sulebail Mutsaddis more than Rs. 10 each per mensem, the amount given to others in similar situations, and the runners should not be paid more than Rs. 5 each. It is only on the Múdgere-Kalasa and Manjarabad-Múdgere lines that any runners in the Province are paid more than 5 Rs. and it cannot be conceded that Mutsaddis on Rs. 10 and runners on Rs. 5 are unprocurable for the Chikmagalur-Koppa line without first trying to get them.

6. The Chief Commissioner is therefore pleased to sanction the opening of a new Anche line from Vastara to Koppa temporarily for six months, and the Anche Bakshi is requested to report on its working on the expiry of that period. If, from that report, it appears that four-fifths of the receipts from private correspondence exceeds one half the cost, the line will be permanently established. The expenditure on the line now sanctioned, to be met from General Savings, is, allowance to the Hobli School-master at Vastara and to the Sayar Karkun at Balehonnur, at Rs. 3 each; pay of Mutsaddi at Sulebail, Rs. 10; pay of 23 runners at Rs. 5 each, Rs. 115; contingencies of the three Anche Offices at Aldur, Balehonnur and Sulebail, at Rs. 2; total Rs. 137 per mensem.

7. As the sanction now given is temporary and the line experimental, accommodation cannot be provided by erecting buildings, but for the Mutsaddis and runners the Anche Bakshi will make such arrangements as he can with the residents in the vicinity.

Secretary.

*Proceedings of the Chief Commissioner of Mysore in the Revenue Department,
(Revenue),—dated 9th September 1880.*

READ—

Letters Nos. 103 and 166 of the 14th November 1879 and 19th March 1880 respectively, from the Superintendent of Inam Settlements, in regard to the treatment of the Sarvamanyam Village of Hoskote in the Nanjangud Taluk granted to Chik Désé Ars by His Highness the late Maha Raja on Umbli tenure.

No. 3390-9—R. 609, DATED BANGALORE, 9TH SEPTEMBER 1880.

ORDER THEREON.—Umbli grants are subsistence grants given to persons from whom generally some service, real or nominal, is expected, as indeed was originally the case with nearly every description of inam. Ordinarily, where such Umbli service is simply nominal, the inams may, to all intents, be treated as personal grants; but in the case of Umbli grants made to the near relations of the Maha Raja, the question has to be determined on State considerations. The Chief Commissioner, concurring with the view taken by his predecessors, considers it undesirable that in these cases the conditions incidental to the tenure should be altered by the Inam Settlement. He therefore directs that Umbli grants of villages to the near relations of His Highness the late Maha Raja, where they are now in their enjoyment, be confirmed to them on their existing Umbli tenure which carries with it the obligation of attachment and allegiance to the Maha Raja even where no particular service is expressly specified, and such grants should not be enfranchised or rendered alienable.

2. The loose manner in which many of the sannads granted by His Highness the late Maha Raja were drawn renders it necessary that each sannad should be construed by the general tenor of the whole document rather than by the phrases used in any particular part of it. Where powers of alienation appear to be clearly and intentionally conveyed, and to have been hitherto acted upon, such cases may be exceptionally disposed of as alienable grants. In all other cases, the conditions of the Umbli tenure as inalienable should be adhered to. In cases where the Umbli villages have already been alienated and are in the possession of the alienees, a report should be submitted to this Office and each case will be decided on its merits.

C. RANGACHARLU,
Revenue Secretary.

To—The Superintendent of Inam Settlements in Mysore, with the original sannad received from him.

READ—

Letter No. 287 of the 20th September 1880, from the Deputy Commissioner of the Hassan District.

No. 3713-20—R. 660, DATED BANGALORE, 28TH SEPTEMBER 1880.

ORDER THEREON.—As a rule, there should be no more than one paid Patel to a village. If the appointment of additional Patels is, in any exceptional cases, found necessary in the interests of the ryots, such additional appointments should be honorary, and ought not to carry any emoluments with it. In the few cases in which two or more Patels to a village are stated to exist, a re-arrangement should be made in accordance with the above instructions.

C. RANGACHARLU,
Revenue Secretary.

To—The Deputy Commissioner of the Hassan District.
,, Deputy Commissioners of other Districts.

*Proceedings of the Chief Commissioner of Mysore in the Revenue Department,
(General),—dated 14th September 1880.*

READ—

Chief Commissioner's Proceedings No. 1376—228 of the 11th June 1880.

Resolution of the Government of India in the Home, Revenue and Agricultural Department, dated 31st July 1880, No. 7—104-16.

NO. 3478—MIS. 481, DATED BANGALORE, 14TH SEPTEMBER 1880.

ORDER THEREON.—The Government of India having finally settled the instructions to be issued to Enumerators in preparing the Census schedules, the accompanying instructions drawn up in pursuance of the same, both in English and Kanarese, with a specimen copy of the schedule filled up, are forwarded for the guidance of the Deputy Commissioners and the officers to be employed in the Census work. A copy of the instructions will be attached to the Schedule Book to be hereafter furnished to each Enumerator. Meanwhile, a sufficient number of copies is forwarded for distribution to each taluk and hobli, so that all concerned may at once acquaint themselves with the details of the work to be done. The precise date fixed for Final Census will be intimated. As it will be about the 17th February 1881, the preliminary record need not commence before the beginning of January; and it is believed that there will be sufficient time for the completion of the jamabandi if early commenced, as has already been enjoined, in all the Districts before the Census operations begin.

2. It will be observed that in the instructions now issued, the following modifications are made:—

- I. Both in the preliminary record as well as in the final census, the population is to be recorded in the Enumerators' Books as actually found at the time. The instructions previously issued for including in the preliminary record temporary absentees amongst the permanent residents are cancelled.
- II. The instructions for opening a separate head "Betrothed" are also cancelled. All persons are to be entered in column 3 of the schedule under one of the three heads of (1) married, (2) unmarried, (3) widow or widower.
- III. The inmates of each house and not the inmates of each family are to be separately numbered.
- IV. Column 6 of the schedule is to contain the main divisions of religion, and column 7 is to shew the various sub-divisions of castes and sects, of which a general list will be furnished on receipt of the lists called for from the Districts.
- V. Under the head of "Lepers" are to be entered only those who are afflicted with the true or eating leprosy.

*Proceedings of the Chief Commissioner of Mysore in the Revenue Department,
(General),—dated 14th September 1880.*

3. Paras 5, 6, 18, 19, 20 and 63 of the Proceedings, dated 11th June 1880, are therefore to be considered as cancelled. These Proceedings were simply intended for the guidance of the Deputy Commissioners and their Assistants in making the necessary arrangements for the work. The Village Enumerators, the Hobli Officers or the Supervisors and even the Taluk Officials need not be encumbered with them. It will suffice to provide them with the Enumerators' instructions now issued, which they should all thoroughly study and master.

4. As the instructions for the filling up of the Census schedules are now finally settled, the Deputy Commissioners should lose no time in numbering the houses, settling the Enumerator's blocks, appointing the Enumerators and Supervisors, instructing them in the form of the schedule and the work to be done by them, and generally arranging for the whole programme of the work in all its details in their respective Districts. They should report their proceedings on these several points without delay, and should at once submit such of the returns called for in para 65 of the previous Proceedings as have not yet been forwarded by them.

*Proceedings of the Chief Commissioner of Mysore in the Revenue Department,
(Educational),—dated 9th September 1880.*

READ—

Letter from the Director of Public Instruction in Mysore, No. 1897 of the 30th August 1880, in regard to the Engineering School at Bangalore.

No. 3356-68—EDL. 48, DATED BANGALORE, 9TH SEPTEMBER, 1880.

ORDER THEREON.—The annexed scheme of studies proposed by the Director for the School of Engineering is approved. The Chief Commissioner also sanctions the employment of Mr. Standish Lee on an allowance of Rs. 200 a month to give instruction to the students for 3 days in the week for 3 hours each day. He will be recognized as the Head of the School, and should arrange to divide the work with the Native Assistant now employed. Arrangements should be made to open the school as early as practicable. The Deputy Commissioners of the several Districts are requested to lose no time in selecting and sending up students with scholarships from their Districts as directed in paras 3 and 4 of the Proceedings No. 2989-96—Edl. 43 of the 17th August 1880. The Director should submit the necessary notification for publication in the Gazette.

2. Separate orders will shortly be issued in regard to the class for Natural Science and the appointment of a Professor for the same, and the arrangements for instruction in Botany and Gardening at the Lal-Bagh.

3. With regard to the scholarships for the Engineering Colleges, as admission to these institutions cannot take place until the beginning of the next year, the selection of candidates may be deferred until November next, by which time greater publicity will have been given to the intention of the Government, and a wider field for selection afforded. Meanwhile, a notification may be published in the Gazette of the number of scholarships which will be available. Those selected should at least have passed the F. A. course.

4. The cases of Anandatirtha Rao (1) and Jayasimha Rao (4), Mysore youths, who are already in the Poona College, are peculiar and deserving of some encouragement. As a special case the Chief Commissioner will give to these students a scholarship of Rs. 15 each, as a help to them towards the completion of their studies.

READ—

Police Administration Report of Coorg for the year 1879.

No. 439—71, DATED BANGALORE, 2ND SEPTEMBER 1880.

REVIEW BY THE CHIEF COMMISSIONER.—On comparing the crime reported during the year under review with that of the previous one, a decrease of seven cases will be seen, and the number of cases struck off is 46 less than in the past year. In all 85 cases resulted in conviction, or 29 per cent of cases reported, as against 40 in the previous year. The decrease is nearly one half; this result is not satisfactory at all, when it is considered that there were only a very few cases for investigation. The Superintendent reports that most of the prosecutions failed under the offence of house-breaking and theft, but this explanation is not satisfactory. These meagre results cannot but be attributed to the inefficiency of the Police who are for the most part ignorant jamma ryots. The total number of persons arrested was 443 or 12 more than last year. The number convicted was 177 as against 199 shewing a decrease of 8 per cent. The results are very unfavorable, and are accounted for as usual by the Police making hasty arrests in cases reported to them which were more of a civil than criminal nature. No action has been taken by the Police in regard to bad characters. In a fluctuating population like that of Coorg it is difficult rigidly to carry out the provisions of Chapter XXXVIII of Criminal Procedure Code. Both the value of property stolen and recovered is less. The percentage of property recovered is 20·52 as against 72·28 or a decrease of 52 per cent in the year under report. Five Inspectors on Rs. 30 per mensem were temporarily employed and they were utilized in patrolling the roads in order to enforce the provisions of the new Coffee Stealing Prevention Act and check the growing offence of coffee stealing. The other details in the Police remain much the same.

2. The near approach of the rendition of Mysore to Native rule has raised the question of the future administration of Coorg and until that be settled it is inexpedient to make any radical changes in the constitution of its Police, or to take steps towards the organization of a regular rural force. The contemplated changes in that direction have therefore not been set on foot during the past year.

W. J. CUNINGHAM,
Secretary.

GENERAL.

*Proceedings of the Chief Commissioner of Coorg, General Department,
9th September 1880.*

READ—

Letter No. 405—188, dated 6th August 1880, from the Superintendent of Coorg, submitting Report on the Municipal Administration for 1879—80.

No. 735—GENL. 105, DATED BANGALORE, 9TH SEPTEMBER 1880.

REVIEW BY THE CHIEF COMMISSIONER.—There are five Municipal Towns in the Province and they contain a total population of 16,045 as specified in the margin. All these Municipalities are under Act XVIII of 1864 as amended by Act XXII of 1865.

Mercara	...	8,146
Virajendrapet	...	3,413
Somavarpet	...	1,309
Fraserpet	...	1,832
Kodlipet	...	1,345

2. The prescribed complement of members being full there was no change in the number of members of the Committees, which remained at 51 as in the preceding year and was distributed as follows:—

Mercara	15	of whom 5 are ex-officio.
Virajendrapet	9	3 do
Somavarpet	9	3 do
Fraserpet	9	3 do
Kodlipet	9	3 do

51

17

3. Rules were framed during the year for electing non-official members according to the provisions of Section 2 of the Act, and members were elected in Virajendrapet by the Board from the principal men of the different sects, a list of whose names had been sent in by the Subedar. In the three minor Municipalities the selection is vested in the Subedars subject to the approval of the Superintendent. In Mercara no candidates having offered themselves the old non-official members were re-elected.

4. *Municipal Revenues.*—The subjoined statement shews the financial position of the year as compared with that of the preceding year:—

5. The receipts of the year amounting to Rs. 16,995—4—6 are detailed as follows:—

Name of Municipality.	Octroi.	House-Tax.	License on Trade.	Tax on Animals.	Other Taxes, Stamping Weight, &c.	Fines.	Miscellaneous.	Total.

*Proceedings of the Chief Commissioner of Coorg, General Department,
9th September 1880.*

6. The income was Rs. 16,995—4—6 against a budget estimate of Rs. 12,959. The amount realized over and above the estimate was Rs. 4,036.

7. Octroi taxation was abolished in Mercara from the middle of April 1879 as directed in Chief Commissioner's Proceedings No. 39—9, dated the 17th April 1879, in accordance with the orders of the Government of India. The amount realized in Mercara under this head till the abolition of the taxation amounted to Rs. 449—8—11. The receipts in Virajendrapet amounted to Rs. 3,009—10—4 against Rs. 2,790 of the preceding year.

8. The receipts from taxation amounted to Rs. 13,245—4—6 against Rs. 14,289 of the previous year.

9. The incidence of taxation per head of the population varies from 2 as. 5½ pies in Fraserpet to Rs. 2—4—0 in Virajendrapet, the average in all Municipalities being 13 annas 2½ pies. The rate in Virajendrapet is exceedingly high; but the Superintendent attributes this to collection of arrears and not to any heavier imposts. The incidence of octroi taxation per head of population in Virajendrapet was 0—14—0½. Possibly the results of the coming census may materially correct the calculation; if not the rates of taxation in that Municipality will have to be revised.

10. The receipts from "Licenses on Trades" or Tax on Professions amounted to Rs. 7,089 against Rs. 6,990—12—9 of the preceding year, but when compared with the estimate which was Rs. 4,450 the increase is Rs. 2,638. This is due chiefly to collection of arrears.

11. House-tax was levied only in Mercara as in the previous year. The receipts were Rs. 2,442—12—1 against an estimate of Rs. 2,200. This increase is also due to the collection of arrears.

12. "Market Fees," which used to be shewn in former years under "Octroi" were for the first time included under Miscellaneous, the receipts from which amounted to Rs. 3,626—0—4 against Rs. 4,757 of the previous year, although an unusual item of Rs. 1,202—8—0 the sale proceeds of unserviceable iron water pipes was credited during the year to Miscellaneous. The falling off of the revenue under this head is not accounted for by the Superintendent.

13. *Remissions.*—A sum of Rs. 591—6—4 is reported to have been remitted as irrecoverable balances outstanding against the octroi contractor and certain other defaulters, but the Superintendent does not state under what authority this remission was granted.

14. The outstanding balance at close of the year was Rs. 3,626—0—7 against Rs. 5,738—15—9. This is comparatively good and still the attention of the Superintendent is drawn to the necessity of adopting measures to make all collections within the year.

15. A bye-law was passed in February 1880, subjecting pandals erected on public roads and thorough-fare in Mercara to a small taxation.

16. The total expenditure during the year which amounted Rs. 26,022—8—9 is distributed as follows :—

Names of Municipalities.	Head Office Establishment.	Conservancy.	Octroi.	Charitable Grants.	Public Works.	Lighting.	Miscellaneous.	Total.
Mercara ...	258 3 ...	2,258 1 6	147 3 0	1,286 7 9	10,319 1 0	180 6 3	256 2 0	14,705 8 6
Virajendrapet ...	230 12 11	1,217 7 9	809 7 10	264 0 0	6,841 13 0	...	820 13 0	10,184 6 6

Fraserpet ...	...	231 0 0	...	...	231 1 8	...	25 8 0	487 9 8
Kodlipet ...	...	157 9 1	...	...	118 0 0	...	...	275 9 1
Total.....	468 15 11	4,095 2 4	956 10 10	1,550 7 9	17,648 6 8	180 6 3	1,102 7 0	26,022 8 9

*Proceedings of the Chief Commissioner of Coorg, General Department,
9th September 1880.*

17. *Conservancy.*—Under this head the expenditure amounted to Rs. 4,095-2-4 against Rs. 2,809-3--7 of the previous year. Although the whole of the budget provision, *viz*, Rs. 5,435, was not spent, the expenditure indicates more extended conservancy operations during the year. The expenditure on sanitary works amounted to Rs. 905-5-6.

18. In Mercara the night soil and refuse are reported to have been deposited in pits outside of the town and disposed of by periodical sales, but it would appear that there was no demand for the sweepings in the three minor Municipalities. As the refuse, if allowed to remain on the surface of the soil, would endanger the health of the towns-people by contaminating the air, the Municipalities should take the earliest opportunity to have pits dug for depositing the refuse.

19. During the year there were 6 latrines in good working order in Mercara, but in Virajendrapet with a population of 3,413 there was only one and that too out of order. The Board's position that latrines in Virajendrapet are unnecessary cannot be accepted. The people should be prohibited on sanitary grounds from frequenting the surrounding fields. The Civil Surgeon's proposal to have two latrines is approved, and there should be at least one latrine for each of the three minor Municipalities.

20. The water-supply in Mercara is ample enough, as there are 4 fresh water tanks and 4 public wells. One of the latter is reported to be out of order. The Superintendent will submit an estimate for its repair. Virajendrapet should possess at least one more public well, and measures will be adopted to clean and conserve the tanks in Somavarpet and Kodlipet.

21. *Public Works.*—Under head Original a sum of Rs. 1,4731-8-0 was spent. The important constructions undertaken during the year were, "Road from Butchers' bazar to main street in Mercara" at a cost of Rs. 2,450 and new markets in Mercara and Virajendrapet which cost Rs. 8,410. The amount spent on "Buildings" is entered in Statement No. I as Rs. 8,684-9-0. The Superintendent will explain this discrepancy. Repairs to roads cost Rs. 2,524-5-8.

22. The total outlay on Public Works amounted to Rs. 17,648-6-8 as detailed below :—

Construction and maintenance of Roads	5,544	5	8
Drainage	..	140	0 0
Water-Supply	..	1,914	0 0
Buildings	..	8,684	9 0
Other Works	..	2,265	8 0

17,648 6 8

23. The subjoined statement shews the budget provision and actual expenditure for works and conservancy in the Municipalities :—

	Original Works		Repairs.		Conservancy.		Total.	
	Estimate.	Actual.	Estimate.	Actual.	Estimate.	Actual.	Estimate.	Actual.
Mercara	6,043	8,719	2,200	1,600	1,064	1,286	9,307	11,605
Virajendrapet	6,145	5,709	1,000	1,133	1,300	1,217	8,445	8,059

Kodlipet	190	58	90	60	252	188	532	276

24. The working of the Municipalities during the year as regards conservancy and sanitary measures shews a decided improvement on the preceding year and the results are considered satisfactory.

*Proceedings of the Chief Commissioner of Coorg, General Department,
20th September 1880.*

READ—

Letters No. 461-215 and 493-228, dated 25th August and 8th September, from the Superintendent of Coorg, forwarding applications from Mr. Patterson for mining rights in 100 acres of land north-west of the Brahmagiri Peak in Kiggatnad.

Letter No. 500-232, dated 14th September, from the same forwarding a similar application from Mr. Hewston for 100 acres in the same vicinity.

READ again—

Letter No. 1-46, dated 15th May, from the Secretary to Government of India, Home, Revenue and Agricultural Department, forwarding copy of a despatch from the Secretary of State regarding mining rights; and Superintendent of Coorg's letter No. 137-18, dated 5th June 1880, suggesting a form of reservation to Government of all mining rights in future grants of land in Coorg.

No. 798—G. 91, DATED BANGALORE, 20TH SEPTEMBER 1880.

ORDER.—The above read applications which are the first of the kind received relating to Coorg, are not very definite as regards the localities in which mining rights are wanted; the Superintendent should therefore send an officer to meet Messrs. Patterson and Hewston and to ascertain exactly where the land is situated. If both applications refer to the same plot, as possibly they may, preference must be given to Mr. Patterson who applied first, but if the plots are different and if they are Government waste land, the Chief Commissioner authorizes the Superintendent to intimate to the applicants that he grants them the exclusive privilege of prospecting in the plots for four months. They may open the surface and do all that is necessary to ascertain if the ground contains gold, and they may carry away small pieces as specimens. At the end of the period now granted for prospecting, or at any prior time if they apply, mining leases will be granted, but the terms cannot be specified until a reference has been made to the Government of India. That will be done at once.

2. With regard to the reservation to be made in all future grants of land in Coorg retaining mining rights in the hands of Government, Colonel Thomson has suggested in the letter above read that in all title-deeds or sannads to be hereafter granted for coffee estates, jamma and sagu lands a clause may be added to the effect that "the right of Government to mines and minerals as well as the right of access and other reasonable convenience for working them on behalf of Government or the assigns of Government is reserved."

A revised draft of rules for the sale of waste lands in Coorg, with revised title-deeds for coffee estates, is now before Government having been submitted with this Office letter No. 1058-58, dated 22nd January 1880, and it was therein proposed to insert such a clause; for sagu lands it has not been the practice to grant title-deeds or sannads, but in accordance with the orders contained in letter from the Home, Revenue and Agricultural Department No. 69, dated 5th February 1880, a form of sannad is being included in the rules for the grant of bane to lands taken up on sagu tenure which are now under the consideration of the Chief Commissioner and the above clause will be inserted. It remains therefore to deal with jamma sannads now and the Chief Commissioner directs that in all jamma sannads hereafter granted the above quoted clause shall be inserted.

COORG CHIEF COMMISSIONER'S OFFICE,
Dated Bangalore, 20th September 1880.

From

W. J. CUNINGHAM, Esq., B. C. S.,
Secretary to the Chief Commissioner of Coorg.

To

*The Secretary, Government of India,
Home, Revenue and Agricultural Department,
SIMLA.*

SIR,

I am directed by the Chief Commissioner to report that two applications for mining rights in Coorg have been received and forwarded by the Superintendent of Coorg for orders. I am directed to enclose a copy of the Chief Commissioner's order No. 798—G. 91 of this date on the subject. Mr. Gordon, it will be observed, has allowed the applicants four months to prospect the land and he proposes to give them mining rights in the blocks if they prove to be at the disposal of Government for that purpose, if they desire to receive them.

2. It now remains to determine the conditions upon which mining rights should be granted and I am directed to apply for the orders of Government on this point.

3. The Chief Commissioner proposes to grant leases for blocks not exceeding 100 acres; to charge no royalty but a ground rent of Rs. 5 an acre, to require that from a reasonable time after the grant of the lease not fewer than 5 laborers an acre shall be continuously employed on each block and to grant the leases for 20 years renewable at the end of that time and liable to revocation for non-fulfilment of all or any of the covenants. The leases will also stipulate for grant of access to Government inspectors, for due and punctual rendering of returns of out-turn, for preservation of rights of way, for safety to life and property in the vicinity.

4. I am to suggest that if the Government are in possession of a form of lease which with or without alteration would be suitable to the circumstances of Coorg, the Chief Commissioner may be favored with a copy of it for guidance.

I have the honor to be

Sir,

Your most obedient Servant,

W. J. CUNINGHAM,
Secretary.

Sanctioned Expenditure for 1880—81	..	..	7,388
Estimated Balance on 1st April 1881	..	..	Rs. 6,082

3. The receipts during 1881—82 are estimated at Rs. 5,600, which will raise the amount available for expenditure to Rs. 11,682.

4. The provision made in the estimates sanctioned in Chief Commissioner's Order No. 776—Edl 5 of the 31st October last will continue to be ample as regards the number of schools, only 46 being yet in operation out of the 60 provided for. A few slight changes have therefore alone to be made in the number of masters of each grade, to allow for promotion of those who are entitled.

5. The principal new charge to be admitted is on account of inspection. The arrangements proposed in consequence of Mr. Richter's intended retirement, as explained in my letter No. 1631 of the 5th ultimo, provide for the employment of a Coorg Sub-Deputy Inspector on Rs. 40 a month to begin with. When first made, some years ago, this appointment was charged to the Plough Tax Fund, though subsequently, on account of the insufficiency of the Fund, transferred to Provincial Funds. There seems no reason now why it should not appear against the Plough Tax Fund again, and I have accordingly so included it.

6. The amount proposed for expenditure in 1881—82 will thus stand at Rs. 7,880, as per accompanying detailed statement.

*Proceedings of the Chief Commissioner of Coorg, Educational Department,
23rd September 1880.*

No. 810—EDL. 15, DATED BANGALORE, 23RD SEPTEMBER 1880.

ORDER THEREON.—With the above the Director of Public Instruction submits his Budget Estimates of the Plough Tax Fund in Coorg, devoted to Educational purposes, for 1881—82.

2. The receipts for the ensuing official year are estimated at Rs. 5,600, which added to the anticipated balance of Rs. 6,082 on 1st April 1881, will give Rs. 11,682 as the amount available for expenditure in 1881—82.

3. The estimated expenditure for that year is given at Rs. 7,880 against Rs. 7,388 sanctioned for the current official year. The increase of Rs. 492 is almost entirely due to the proposed entertainment of a Sub-Deputy Inspector of Schools on a salary of Rs. 40 per mensem or 480 a year, the other 12 Rs. being accounted for by a few changes in the respective numbers of the three grades of Nad School-masters.

4. The appointment of a Sub-Deputy Inspector in Coorg on Rs. 40 per mensem has been included in the scheme submitted to the Government of India for sanction, with letter No. 654-39, dated 23rd ultimo in connection with the arrangements proposed consequent on the contemplated retirement of the Reverend G. Richter, the present Inspector of Schools in Coorg. When sanctioned the pay of the Sub-Deputy Inspector will be debited to the Plough Tax Fund as proposed by the Director.

The estimates now submitted are passed.

READ—

Letter No. 2120, dated the 18th September 1880, from the Director of Public Instruction in Coorg, submitting for orders the Coorg Educational Budget for 1881—82.

No. 842—EDL. 18, DATED BANGALORE, 29TH SEPTEMBER 1880.

ORDER THEREON.—The receipts for the year are estimated at Rs. 7,600 against Rs. 8,800 in the previous year, as detailed below :—

Budget Heads.					1881—82.	1880—81.	Increase.	Decrease.
Fees and Fines	..	...	...	..	2,000	3,200	...	1,200
Educational Plough Tax...	...	...	...	...	5,600	5,600	...	...
					7,600	8,800	...	1,200

2. The decrease, however, of Rs. 1,200 under "Fees and Fines" as compared with the estimate of the previous year does not indicate any actual falling off in the school fees, but it is due to the receipts for 1879—80 and 1880—81 having been estimated by the Director of Public Instruction without due regard to the actuals of the preceding years which were Rs. 860 and Rs. 874 respectively.

*Proceedings of the Chief Commissioner of Coorg, Educational Department,
29th September 1880.*

3. The expenditure of the year is estimated at Rs. 24,400 against Rs. 26,288 of the previous year as summarized below :—

Heads of Disbursements.				Sanctioned Es- timate for 1880—81.	Proposed Esti- mate for 1881—82.	Increase.	Decrease.
I. Inspection	...	...	...	7,200	...	..	7,200
II. Instruction—							
(1.) High and Middle Schools	...	...	...	6,260	11,160	4,900	...
(2.) Boarding Houses	...	...	...	1,200	1,200	...	...
(3.) Primary English Schools	...	...	...	1,800	1,800	60	...
(4.) Normal Schools	...	...	...	940	940	...	...
III. General	...	...	...	1,500	1,360	...	140
V. Local Funds	...	...	...	7,388	7,880	492	...
				24,400	26,288	5,452	7,340

4. The total decrease of expenditure from Provincial Funds amounts to Rs. 7,340 and the total increase to Rs. 4,960, the net decrease being Rs. 1,388.

5. The important item of decrease is under head I—"Inspection" which has been done away with as a separate charge, owing to the proposed amalgamation of the offices of the Inspector of Schools in Coorg and Head Master of the Mercara High School, in consequence of Mr. Richter's retirement which has been recommended to the Government of India in this Office letter No. 654—39, dated 23rd August 1880. This decrease has involved an increase of Rs. 4,740 under II—"Instruction" to provide for the increased rate of pay of the Principal and that of the Inspector's Writer, and also to provide for the pay of a Sub-Deputy Inspector of Schools at Rs. 480 per annum, but the latter charge will be borne by the Local Funds as has been separately considered and sanctioned in Chief Commissioner's Proceedings No. 810—Edl. 15, dated 23rd September 1880.

6. The provision of Rs. 420 made in the Budget for the pay of 2 additional Masters whose entertainment was sanctioned temporarily in Home, Revenue and Agricultural Department No. 180, dated 22nd April 1880 and of a gardener for the High School is approved. The proposition submitted by the Director regarding the new appointments, which however differs from the statement submitted with his letter No. 1631, dated 5th August 1880, will be forwarded to the Government of India.

7. As compared with the estimates of 1880—81 there is an increase of Rs. 60 under "Primary Schools". This sum is provided for the pay of a peon sanctioned for the Virarajendrapet School in Home, Revenue and Agricultural Department No. 205, dated 18th May 1880.

8. The decrease of Rs. 140 under III—"General" is chiefly due to the sum of Rs. 100 provided in the Budget of the current official year for grant-in-aid to a school proposed to be opened at Mercara by the Basel Mission for European and Eurasian children not being required, but the Director will report the circumstances that prevent the school being opened.

9. With the foregoing observations the receipts and expenditure are passed for Rs. 7,600 and Rs. 24,400 respectively.

Secretary.
